

## Grading and Assessment Policy

Term marks are calculated as: unit tests and the midterm 50%, quizzes 20%, projects 20%, and homework or practice 10%. Homework is graded on completion, not correctness.

The lowest single quiz score in a term is dropped automatically before the term mark is computed. This applies once per course per term and cannot be combined with a dropped test score.

Late assignments lose 10% of the earned score per calendar day late, to a floor of 50%, and are no longer accepted after five school days past the due date. This penalty is waived for a documented absence or a technology outage reported before the deadline.

Re-grade requests must be submitted in writing within five school days of work being returned, and must name the specific questions in dispute rather than requesting a full review. A re-grade may lower a score as well as raise it.

All scores must be entered into the gradebook system before the department's published reporting deadline each term. Comments are required for any student scoring below 60% or receiving an incomplete.
